certified African guides. If you have a group of 6 or more, upon request, an American WildTrek guide can be provided to assist in the day to day logistics of your group.

**ACCOMMODATIONS AND TRAVEL:** As noted in the location descriptions, there are many lodging options in the parks and reserves. These accommodations can range from the very basic to luxury camps and lodges. Most lodges tend to be in the mid range for costs, running in prime season from \$175 to \$250 per person per night. Tented camps can have a much wider range in the nightly tariff. In place tented camps in prime season can run from \$125 to \$300 per person per night. For groups of 6 or more a portable tent camp can be used. These can be very basic tent camps which require visitors to participate in the set up/take down of camp and assist in all meal preparation and clean up, to the very expensive for the more posh set ups. Luxury accommodations are available in most locations. Luxury class accommodations tend to run from \$450 per person per night to \$800 per person per night. If you would like information on our luxury programs, let us know and we will send detailed information.

Travel in country also has several options. For most all safaris we use small combis (known as mini vans here). These are very comfortable, and the roof of the van pops up allowing for wildlife viewing. For programs taking place in more remote areas we use Land Cruisers® which can negotiate difficult terrain, but which are not as comfortable on long trips. It is also possible to utilize charter flights from one location to the next, this can however be very expensive and not something we recommend as it removes visitors from interactions with people in villages along road routes.

## Harley-Davidson Motorcycle Tours

WildTrek also offers self guided and guided Harley - Davidson motorcycle tours in South Africa. This is a 15 tour and the itinerary encompasses travel along the cape coast, wine country, the southern mountain and ends with a tour to a private wildlife reserve outside Kruger Park. If you would like information on this tour, separate detailed information is available. Call or e-mail us for a complete package of information.

**SAFARI LENGTH:** Most Americans plan on spending 10 days in Africa, usually to accommodate a 2 week vacation window. We recommend that if you have the time, looking to a longer stay of 12 to 14 days. The longer your safari, the more in depth your experience can be with time to visit more parks and reserves. East Africa has an amazing range of environments, from glaciers at 19,000' on Kilimanjaro, to vast deserts, expansive savannas, rain forests and seemingly endless miles of white sand beaches. All our clients are accompanied by English speaking
